Eski konak street 8/6, Besiktas, Istanbul, Turkey | +905304147173 | nihadazimli@outlook.com

Experience

Data Engineer — Getir

Sep 2019 — Present

- Developed Apache Airflow for periodic crons within 2 phases: First phase with Local Executor, second phase converting to Celery Executor
- Delivered new architecture for company logs using Python, AWS Firehose, AWS Athena, AWS S3, AWS Lambda and AWS Glue. Reduced AWS Athena costs by 200%. In research stage of converting AWS Athena to Presto
- Performed data migration for log data from MongoDB and AWS S3 to adopt all log data to recently developed architecture using Apache Spark, Python, AWS Lambda.
- Built customized JupyterHub in Kubernetes for data team common development environment.
- Building stream data processing pipeline using AWS Kinesis and Dynamodb for live user sessions

BI and DWH Developer — TAB Food Investments

Sep 2018 — Sep 2019

- Developed reports with Qlik Sense and Qlik View for 2300 quick-service restaurants of Burger King in China and Turkey
- Implemented conversion from SQL SSIS to Apache Airflow to ETL processes
- Created new data sources with web crawling using Selenium and Python
- Developed and maintained SQL queries and stored procedures in Parallel DWH
- Developed Bamboo for continuous deployment of the company website

Software Developer — T2 Software

Aug 2017 — Jan 2018

- Conducted Stock Market prediction with Sentiment Analysis Project
- Worked on Data Mining and Sentiment Analysis with Python and TensorFlow
- Used Technologies: MongoDB, TensorFlow

Software Developer Intern — T2 Software

Jun 2017 — Aug 2017

- Part of Stock Market prediction with Sentiment Analysis Project
- Worked on Data Mining and Classification with DynamoDB, TensorFlow

Education

Bilkent University, Ankara — BSc Computer Engineering

Aug 2014 — Aug 2018

- Honour student in fall semester 2015-2016
- Member of Institute of Electrical and Electronics Engineers (IEEE) student club

Senior Design Project:

- **Drector** a hybrid mobile application to keep track of drones and quadcopters in surroundings.
